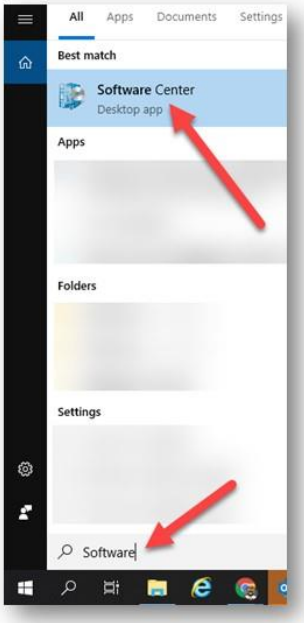
Dear Students,

To prepare for your AP exams on your FCPS laptop, there is a required update for the AP Digital Exam App. Please follow the steps below. It may be necessary to restart your computer. This update can be done while you are in the building or attending school from home.

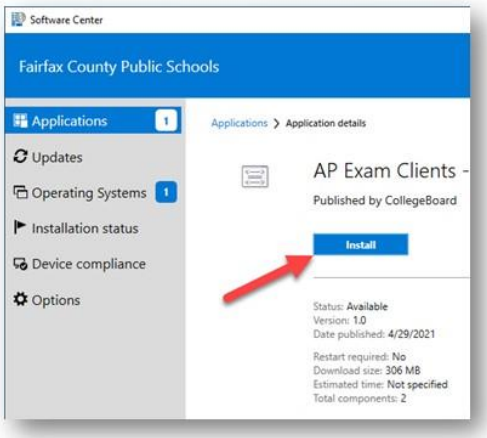
Step 1:
Type "Software" in the search bar at the bottom of your screen. Then select "Software Center".



Step 2:
Select the icon for "AP Exam Clients – Install AP Exam…".

*If you do **NOT** see this advertisment in your Software Center, wait for 15-30 minutes with your laptop logged in and online, and check again. If it still does not show up, restart your computer and check after 10-15 minutes of being connected online. If it still doesn't show up, see contact info below.

Step 3:
Select Install.



If you have issues with loading the application, please email Mr. Kohls (klkohls@fcps.edu) **AND** Mr. Rabadi (falrabadi@fcps.edu) directly.
